

Communication for Teaming and Collaboration Checklist

This checklist includes examples of verbal and written communication skills for building team relationships needed to work together effectively and gather/convey vital information for providing services and supports for children and families.

The checklist indicators can be used by team members to assess whether quality communication is taking place during all formal and informal team interactions (e.g., during intake, assessment, team meetings, and ongoing intervention interactions) and to develop a plan for any improvements that may be needed.
